

RFID Card Reader 2

My new RFID card (with 125Khz) is not detected in RFID Card reader 2? What happened?

Our RFID Card Reader 2 has a new version rev2 of firmware..

You have your (OLD) RFID Reader 2 with no label on the board #2 (revision 2), it needs to update the firmware to work on the new RFID Cards with 125KHz.

Kindly drop by in our store, we will update your device with no fee or extra charge.
