gizDuino 5

How to add the gizDuino patch file? In Windows OS?

gizDuno Patch file contains the list of all gizDuino boards. If you already download an Arduino IDE from Arduino.cc website. You can download the gizDuino Patch here: https://github.com/?q=gizduino (check the version of your IDE if its 1.0.x, 1.6x,1.8.x)

By adding the patch:

1. Unzip the file.
2. Copy "gizduino-" folder.
3. Go to Arduino IDE 1.8.x folder>hardware> paste the "gizduino-" folder.
4. Open the Arduino.exe application. [Go to Tools> Boards>gizduino boards included]

Done!
