

ESP-12 Shield

What is the uploaded firmware (default) in ESP-12/E Shield?

Based on the sample application, its esp_iot_sdk_v1.5.0 firmware that contains: a) bin\at\noboot"eagle.flash.bin" - 0x00000, b) bin\at\noboot"eagle.ironcontext.bin" - 0x40000, c) bin"blank.bin" - 0xfe000, d) bin"blank.bin" - 0x7e000

The firmwares are required to upload on the esp-07 module to be able use the "WiFiEsp library" in Arduino.
